How This Works...

Lead: A referred contact (Prospect) who (a) is not a current client, and (b) is not already being referred by someone else, and (c) whose information is submitted in the required fields on this form below.

Compensation: Any lead (from you) our Sales Team is able to convert into a new Client and IT MSP Subscription (under any one or more of 9 different plans), will earn the full 'first month' installment of the monthly subscription amount. Payment will be provided via cash, check, or direct deposit, immediately upon establishment of the subscription. Monthly subscription amounts can range anywhere from \$150 to \$5,000+ (most commonly between \$1k to \$3.5k), depending on the size of the client/subscription.

The Process: Fill out this form, then email it as an attachment to "referrals@bankheadtech.com". BTI will respond to you and confirm it's a new lead. Then BTI will reach out to the Prospect to schedule a consultation and quickly quote an MSP subscription (usually same day). If/when an MSP Subscription is established, BTI will submit their invoice - and your payment will be sent to you immediately upon BTI receiving our new Client's invoice payment. BTI will follow up with you per each of these steps above, and keep you closely updated on lead status.

How to get a Lead

Very Simple. No Sales, Just Leads: You don't have to know a single thing at all about IT Services yourself. Otherwise, anyone you know (or meet) who manages or owns any business (anywhere, any size, any field) - whether close by or even far far away (BTI serves clients in 38 states):

- ▶ just ask them if they have anyone doing their IT, AI, Telecom, or Website development.
- ▶ if they already have a provider, ask them who it is
- ▶ then just ask if they'd mind if you provide BTI their contact info, so we could reach out and stop by for just a few mins for a quick consult - and introduce them to the best version of IT Services they've ever heard of..

Tid bit about BTI: If they ask for just a *little* more info though - here's some quick easy factoids, and then you can just send them to look at our website: bankheadtech.com/msp

- ▶ BTI provides 'IT Services by Subscription' - just like any internet provider, mobile phone provider, Netflix, or any other 'subscription' service: a set monthly rate and unlimited labor, service, and support covered under their plan.
- ▶ BTI provides a 24/7 easy-contact US-based helpdesk, offers priority response times (with money-back guarantees!), and specializes in IT Compliance, Cybersecurity, AI Consultation (“*how can I use AI in my business?*” - **or** - “*how can I protect my business from others using AI?*”), Telecom, Cloud Services, and Web/Software Development (+ all other standard IT Services).
- ▶ We also specialize in IT for any size/type business in the Medical and Financial fields, and any Industrial/Manufacturing (but we service clients in many other fields also).
